

Test Asset Optimization Services

See. Know. Optimize.

Loan Pool Services

“Increased asset sharing over three times – increasing asset utilization by 40%” – customer testimonial

Your challenge

To decrease the cost of test.

Typical resolution

Use older equipment and stockpile under-utilized test assets.

Our solution

Loan and share test assets through a central pool of your under-used test assets and identify instruments for trade-in, upgrade, or disposal.

Benefits

- Avoid CapEx spending on tests assets by optimizing, standardizing, or sharing across R&D labs and manufacturing operations.
- Eliminate aging or underutilized equipment and reduce OpEx costs for maintenance, taxes, insurance, and overhead.
- Leverage the residual market value of aging instruments through trade-in, upgrade, and disposal.
- Optimize rental-versus-purchase strategies (OpEx vs. CapEx) through loan pools that can link to your preferred rental company.
- Fund new test technologies with value captured from underutilized assets.

See. Know. Optimize.

Improve ROI in Three Steps

Step 1 See

Do you have business control over your asset base with fundamentals like accurate inventory?

Track your assets

Step 2 Know

Do you have true utilization and health data to help reduce your CapEx and OpEx?

Monitor true utilization and health

Step 3 Optimize

Can you balance your existing assets with the demands of your product schedules and new technologies?

Share and loan assets across teams
