

Keysight Technologies and Academia Partners in Education and Innovation

Keysight is committed to helping you teach the engineers of tomorrow

Affordable measurement solutions for teaching and research labs

The Keysight Technologies measurement products have a long history of use in teaching and research labs. Keysight offers the widest selection of test equipment in industry.

It is the same affordable, full-featured set of test and measurement tools used by professionals, which better prepares students when they transition into industry.

- Oscilloscopes, analyzers, meters
- Generators, sources, supplies
- Software, data acquisition, test systems
- Nanoscale microscopy, positioning and optics
- Wireless device test sets and wireless solutions
- Wireline communications test equipment

Keysight offers a complete curriculum-based solution that addresses the educator's requirements. These lab solutions represent different ways to test instruments and can be grouped in teaching labs for a specific application. Each solution also comes with a training kit and courseware to help educators and students in the respective classroom subjects. Whether you need materials for RF communication classes, basic electronic classes, or to address the latest market trends such as the Internet of Things, we have teaching solutions to meet your needs.

Save even more money from Keysight CertiPrime

Buy fully remanufactured test equipment that is like new, except for the price. It costs less but still has the same performance as if it were new. These refurbished products cost 20% to 50% less than our new products. All products come with the same support, return policy, and standard accessories as new models, plus the latest compatible firmware and software.

Jobs for students and new graduates

Keysight builds relationships with universities to recruit top talent college hires. Each year, we hire hundreds of the best students around the world for internships and full-time employment. These college hires bring new ideas to Keysight that challenge the status quo through fresh perspectives that test long-held beliefs. This clash of ideas is the spark of innovation.

Free resources from Educator's Corner web portal

Educator's Corner is a dedicated web site that provides a one-stop education resource to lecturers, researchers and students looking to enhance their higher education curriculum and research capabilities. Download and share tools and resources.

- Teaching tools
- Lab experiments
- Java animations
- Computer based training
- Application notes
- Webcast seminars
- Journal articles
- Engineering cartoons
- Student resources
- Information on educational discounts and promotions

Research partnerships and collaboration

As the world's premier measurement company and a committed global citizen, Keysight takes an active role in supporting higher education and research.

We are committed to furthering science and technology by developing strategic partnerships with universities and research labs worldwide. We work with these universities to develop technology in areas of mutual interest.
